

## Multi-Axis Armboard Rotating Clamp with 2" pad

BF71239

The Multi-Axis Armboard includes a 2" pad and the rotating attachment clamp. With the squeeze of a single handle, the armboard permits flexion, extension, abduction / adduction and rotation of the arm. This armboard is also height adjustable and features a rotating clamp that allows attachment to the back section of the table to accommodate the sitting position. In the seated posture, the patient's flexed arm can be adjusted to an ergonomically correct position.

Dimensions: 7" W x 30"L x 8.7"H.

Clamp included.

To be used with US side rails

CE marked product
