

Anesthesia Armboard with 5" Pad

BF804

The radiolucent carbon fiber armboard with 5-inch Pad is easily attached and removed from surgical table siderail and is easy to clean. Components are enclosed within molded body, protecting against denting, breakage, and damage when dropped.

Includes a 30-inch hook and loop fastener arm restraint strap.

Also compatible with CMAX X-Ray table with use of Standard Siderail Adaptors.

Dimensions: 6"W x 26"L.

CE marked product

To be used only with US side rails

COMPATIBLE WITH

CMAX™ X-RAY - 5085 SRT - 4095 - 5095 - 7080
