

STERIS PowerLift Plus Stirrups Bariatric 800 (Pair)

BF857

The integrated power assist mechanism in these stirrups is a feature we incorporated from our traditional PowerLift Stirrups. The unique, grip-and-twist control handles allow staff to adjust the angle of lithotomy and degree of ab/adduction during setup without lifting the sterile drape. What sets these stirrups apart though is the new curved rod, the Velcro®-less straps and the addition of the lateral fin. The curved rod increases lithotomy range of motion by over 23 degrees. The lateral fin protects the perineal nerve running up the outside of the leg near the knee. The PowerLift Plus Stirrups attaches to the boot shell with a hook and loop fastener.

Range of motion: 85° / -55°, Ab/Adduction: 25° / -9°.

Includes rail clamps for US side rails and pads.

Patient Weight Capacity: 800 lbs (363 kg)

CE marked product

COMPATIBLE WITH

5085 SRT - 4095 - 5095 - 7080
