

Patient Positioning Strap

BF45

Patient Positioning Strap

- Patient Restraint Strap is a reinforced synthetic elastomer belt and strap with quick-release clamps for easy yet secure, adjustable positioning on the surgical table's side rails.
- This strap is adjustable in length with its two latch style buckles and is available in two sizes for standard and bariatric patient application.
- The entire strap and wide belt with its smooth surface is easily and thoroughly washable.

Table Compatibility:

Compatible with all surgical tables and table extensions with side rails.
