

Arthroscopy Knee Holder with pad set

BF717

The Arthroscopy Knee Holder attaches to the seat section of the table with a Clark Socket (not included) and is typically used for the "off-the-end" of the table arthroscopy technique. The diameter of the knee holder can be adjusted as surgical needs dictate. A reusable three-piece cushion set is included with hook and loop fasteners.

Pad set included.

Requires (1) Clip-On Socket Clamp (BF10), or other socket clamp.

Patient Weight Capacity: 500 lbs (227 kg)

Product not CE marked

To be used with US side rails

COMPATIBLE WITH
